SCOPE OF WORK:

The Contractor will perform all work required for the Integrated Information System Program (Phase II) in accordance with the Contractor's Proposal for Phase II of Integrated Information System (IIS), dated June 15, 1966, as revised by the Contractor's letters, dated July 27, 1966, November 8, 1966, and 10 November 1966,* said proposal, as revised, being incorporated herein by reference and made a part of this task order, and; by the following Statement of Work:

The Contractor proposes to supply direct engineering and support manpower, material and facilities to accomplish the tasks described below over a ten (10) month period on a cost plus award fee basis.

A. Study Tasks

- (1) Determine quantitative design parameters (e.g., input, output, and response requirements in terms of volumes, frequencies, rates, and types) for each ADP function of the system defined by the Conceptual Design and Functional Specifications Report No. SCR 288). Develop alternative methods for performing these functions, evaluate these methods as applied in an integrated system design, and establish the techniques most amenable to utilization in the IIS. During the development of the total system design, the Contractor shall place a special emphasis on the following major areas:
 - a. the handling of attitude and position data;
 - b. formats for the various readout worksheets;
 - c. the set of products to be generated by the IIS for both internal and external use;
 - d. procedures for the transcription, entry and approval of material to be added to the data base;
 - the various mensuration activities required at NPIC during both the immediate and detailed reporting cycles;
 - f. procedures for the prediction of the film location of targets and a method for target prediction which will meet the requirements of the IIS.
 - g. procedures for assisting in the distribution of film, the assignment of personnel and the selection of supporting materials and equipment to be used during the immediate reporting cycle;
 - the scope of information to be handled by the IIS required to support imagery exploitation;
 - i. target data file structure;

- j. file utilization program package;
- k. techniques for the retrieval of information stored in the data base;
- procedures which will meet established security regulations for the control of film and documents;
- m. procedures for the initiation of briefing boards and for the preparation of the supporting textual material;
- n. procedures for the machine production of graphic materials;
- o. CHIVE, COINS and the data link interface with the IIS;
- p. correlate and integrate subtasks <u>a</u> thru <u>o</u> into a comprehensive detailed system design.

Note: The study efforts "a" through "o" above shall be developed in close coordination with the NPIC components affected, and problem areas brought to the attention of the technical monitor. The efforts shall be described in informal memoranda submitted as individual tasks are completed for review and approval by NPIC. Approval or disapproval will be given within ten (10) working days of receipt at NPIC. The Government shall provide the reasons for disapproval and determine corrective action by mutual agreement with the Contractor.

- (2) The results of the Task I analysis shall be reported in a formal study entitled "NPIC IIS System Requirements." The study will describe the overall system operation, the input/output loading factors, the cost effectiveness of the system and subsystems relative to an extrapolation of the present system to handle these loads, and present a brief description of the system components and the interfaces between components. System effectiveness shall be evaluated utilizing the criteria identified in Phase I as a basis.
- (3) Prepare detailed specifications for system components including hardware, computer programs and files in "Integrated Information System (IIS) Specifications." These specifications shall conform to a documentation standard agreed to by the technical monitor and the Contractor. It is understood that the specifications shall be sufficiently detailed to be directly applicable as attachments to Requests for Proposal to be sent to potential vendors. Classification shall be kept as low as feasible.
- (4) Prepare a detailed system implementation plan. This plan shall include schedules and budgetary costs for procurement and installation of hardware and facilities, generation of computer programs and files, manpower, training, system tests and the generation of final system documentation.

(SCHEDULE)

CONTRACT/TASK ORDER NO. 25X1A

Note: The design plans and specifications to be procured under this task order are in contemplation of additional phases under this program. However, the Government shall in no way be obligated to negotiate a contract for this additional work.

B. Reports

In addition to continuing the regular Monthly Progress Letters required by the basic contract per Specification No. DB-1001, 31 August 1966, the Contractor shall produce the following technical reports during the conduct of Phase II of the IIS study program:

- (1) A detailed system description for the IIS to be composed of two parts, "NPIC IIS System Requirements" resulting from Task A (2), and Integrated Information System (IIS) Specifications" resulting from Task A (3). The detailed specifications contained in the latter document should be issued as attachments to System Requirements. The two documents should be so structured so that they may be used either as a comprehensive Request for Proposal or for the entire hardware or software system or they may be divided into logical subsets and used as RFP's for the subsets. First attention will be given to long lead time components.
- (2) A Detailed System Implementation Plan reporting the results of Task 4.

C. Schedule

Activities undertaken in fulfillment of the Statement of Work will be accomplished in accordance with the attached schedule.

PERIOD OF PERFORMANCE:

The period of performance for all work under this task order shall be 12 December 1966 to 22 September 1967.

DELIVERABLE ITEMS:

- a. Monthly reports as required by Specification No. DB-1001, dated 31 August 1966, attached herewith.
- b. Detailed System Description as set forth in Paragraph B, Subsection (1), of the Work Statement.
- c. Detailed System Implementation Plan as set forth in Paragraph B, Subsection (2) of the Work Statement.

DELIVERY:

1. Two (2) copies of all reports required under this contract shall be

forwarded directly to the Contracting Officer.

2. Four (4) copies of all reports required under this contract shall be forwarded to the Technical Representative of the Contracting Officer at the following address:

25X1A	

3. In the event any item under this contract is personally delivered to the Technical Representative of the Contracting Officer, a signed receipt, in duplicate, must be obtained from said representative and one copy attached to any invoice submitted for reimbursement for such item(s). Failure to do so will result in suspension of payment, since the Disbursing Officer is prohibited from making payment without evidence of delivery.

CHANGE OF SCOPE:

Whenever a redirection of effort is required not within the scope originally contemplated, the Contractor may appeal to the Contracting Officer for a written order to perform and a statement that an equitable adjustment in price will be made. Failure to appeal to the Contracting Officer before embarking upon the changed work will not afford protection of the right to additional compensation for such work.

PANEL DISCUSSION:

The Contractor agrees to participate in panel discussion with other Contractors having major programs with the Sponsor for the purpose of assessment, evaluating and briefing within the framework of these programs. The Technical Representative of the Contracting Officer shall convene a panel for this purpose and may chair or designate the Contractors representatives who will serve in the capacity of Chairman and Executive Secretary. Reports resulting from the panel's findings, conclusions and/or recommendations shall be so classified as to afford protection of ideas, equipment, techniques, etc.

PERFORMANCE OF WORK AS ASSOCIATE CONTRACTOR:

The Contractor does hereby agree that, in the interest of avoidance of duplication of effort, portions of the work required under this contract shall be performed in association with other contractors who may be performing related tasks, as may be determined by the Technical Representative of the Contracting Officer. Work to be performed as an Associate Contractor shall be in accordance with the direction, in writing, of the said Technical Representative.
